Rolling Walkers

*Built
for Life*

ORTHO-MED, INC.
Commitment to Caring

Nova Walkers Stand Alone

Easy-to-Remove Back

(available on 4202, 4214, 4215, 4216)

Patented pull pin design allows backs to be removed easily for compact storage.

Flip up back

This convenient design flips up for compact transporting and quickly flips back down to provide a backrest when seated. This replaces the difficult to use push pin design found on other brands. No more lost or damaged backrests.

Brakes

Our patented hand brakes have been engineered for maximum comfort. They allow users to apply pressure with their entire hand without placing undue pressure on just one finger. People with weak or small hands will find our braking system easier to use.

Reflectors

Our walkers include reflectors for additional user safety.

CAUTION

- Lock Hand brakes before sitting and while seated
- Seat is for stationary sitting only. Do not ambulate or use as a transport chair while seated.
- Do not use on stairs, escalators, or moving walkways.
- Backrest must be attached to the walker prior to operating

The **CRUISER DE-LIGHT** is our only 4-wheeled rolling walker that folds just like a standard folding walker. This versatile walker folds compactly for easy storage and transport plus features an extra-wide seat with a built-in removable seat pad. The Cruiser De-Light combines a lightweight frame with our patented "Feather Touch" hand braking system.

Weight capacity – 250lb.

Weight – 15.5lb.

Handle adjustment – 34.25" - 38.25"

Seat dimensions – 15.5"w x 10.5"d

Seat height – 19.5" - 23.5"

Width between handles – 18"

Overall dimensions – 27"w x 23"d

Color – blue, red

Approximate patient height – 5'4" - 6'2"

Overall dimensions folded –
35"l x 28"w x 7"d

Basket dimensions – 19"w x 7"l x 7"d

Optional accessories – basket, tray & cup holder, designer seat cover, Aloha walker bag, flashlight

Cruiser II – 4201

Cruiser – 4200

The **Cruiser II** is excellent for beginning gait training. The large 5" wheels roll smoothly and the rubber tips on the rear legs prevent the walker from rolling away. The frame is more stable than a folding walker providing the confidence necessary to establish a natural walking pattern. *(basket included)* Tip – 40023Bk

Weight capacity – 250lb.

Weight – 9lb.

Handle adjustment – 31.5" - 36"

Seat height – 20"

Seat width – 13"

Width between handles – 17.5"

Overall dimensions – 21"w x 21"d

Color – blue

Approximate patient height – 5'3" - 6'0"

Overall dimensions folded – 32"l x 21"w x 9"d

Basket dimensions – 14"w x 10"l x 7"d

Optional accessories – rubber seat pad, tray, basket cover bag, hanging walker bag, travel bag, cup holder, glide skis, Aloha walker bag, flashlight

The **CRUISER's** weight-activated braking system is great for the person who has limited hand dexterity or is not able to operate a hand brake. This braking system allows you to stop your walker with the lightest touch. *(basket included)* Tip – 40023Bk

Weight capacity – 250lb.

Weight – 11lb.

Handle adjustment – 31.5" - 36"

Seat height – 20"

Seat width – 13"

Width between handles – 17.5"

Overall dimensions – 24"w x 23"d

Color – blue, red

Approximate patient height – 5'3" - 6'0"

Overall dimensions folded –
33"l x 24"w x 7"d

Basket dimensions – 14"w x 10"l x 7"d

Optional accessories – rubber seat pad, tray, basket cover bag, hanging walker bag, cup holder, travel bag, Aloha walker bag, flashlight

Cruiser Classic – 4200C

Cruiser Deluxe Classic – 4202C

The **CRUISER CLASSIC's** weight-activated braking system is great for the person who has limited hand dexterity or is not able to operate a hand brake. This braking system allows you to stop your walker with the lightest touch. The Cruiser Classic has a smaller padded seat than the Cruiser and the basket fits under the seat instead of in front of the walker. *(basket included)* Tip – 40023BK

Weight capacity – 250lb.

Weight – 11lb.

Handle adjustment – 31.5" - 36"

Seat height – 20"

Seat width – 12"

Width between handles – 17.5"

Overall dimensions – 23"w x 23"d

Color – blue, red

Approximate patient height – 5'3" - 6'0"

Overall dimensions folded – 33"l x 24"w x 7"d

Basket dimensions – 14"w x 8"l x 7"d
